INTERACTIVOS? LIMA'09: MAGIC & TECHNOLOGY - "Rainbows" Call for Collaborators and Open Call for Collaborators.

Rainbows was selected by Medialab Prado for a residency in Lima, Peru in April. I (Kyd Campbell) will travel to Lima and I look for technical and creative collaborators for this project who can also join me in Peru. You can find more info [here](#) ... and you can apply to be a collaborator by filling out the online form on the Medialab Prado [website](#).

Please check out my project [Rainbows](#) and if you're interested apply as a collaborator or forward this info on to anyone that might be interested. Feel free to contact me for more info: [kyd\[at\]frontierlab\[dot\]org](mailto:kyd[at]frontierlab[dot]org).

Rainbows is an interactive artwork that questions the consequences of digital image consumption by allowing anonymous contributors in public space to safely dispose of their unwanted images and contribute to the occurrence of real rainbows.

Thanks a lot for disseminating this info. This residency is a great opportunity to make major technical advancement on the Rainbows project and I really look forward to the new collaborations.

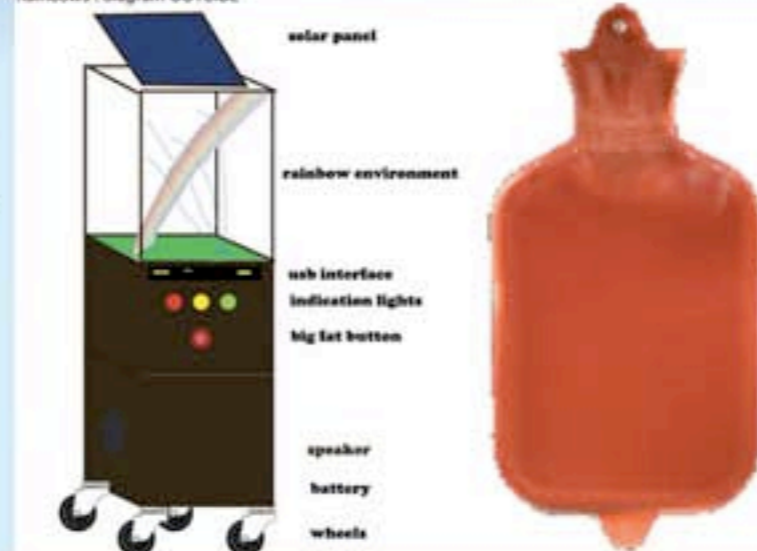

Please especially send this along to anyone who is in Peru or has contacts there.

OFFICIAL INFO: Open call for collaborators for the INTERACTIVOS? LIMA'09: Magic and technology advanced project development workshop. Collaborators will have the opportunity to join the work teams that will develop selected proposals to build software pieces and interactive installations which propose a rethinking of the usual scenario in magic tricks, marked by a very clear separation between the wizard and the spectators. Submissions' deadline: April 7, 2009. No entry fees.

Medialab-Prado and the Cultural Center of Spain in Lima - AECID issue a call for all those interested in taking part in the INTERACTIVOS? LIMA'09: Magic and technology (in Lima, from April 13 through 28, 2009), by collaborating in any of the teams that will develop the selected proposals. The workshop takes places at Escuelab (address: Jirón de la Unión 1044, 5 Fl.)

The role of the collaborator is crucial in these kind of workshops' statement and development process, as they are constituted as a horizontal collaborative work environment, knowledge interchange and theoretical-practical training among teachers, authors and collaborators.
